DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1-3 are rejected under 35 U.S.C. 102(b) as being anticipated by Japanese Patent Application (JP 2003-014249-A). The said Japanese Patent Application discloses an air conditioner comprising: a case, an opening, a moveable panel, a driving portion (see figures), transmitting forces created by gears, a supporting member (71) and cover is protruding away from the casing (see figures).

Allowable Subject Matter

Claims 4-20 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
